

**'YOU CAN'T EXPECT AN ADULT
TO KNOW EXACTLY WHAT TO DO,
NO MATTER HOW LONG THEY'VE
BEEN IN THE BUSINESS.'**

young person's words

Contextual Safeguarding is a way of helping to make places outside the home safer for young people. We want to see services and communities work together so that all young people are safe when they are in their neighbourhoods, at school and with their friends. We want to make changes that young people like.

We need your views!

What makes a good worker?

Tell us about what sort of person you like to work with (like a youth worker or social worker)?

Imagine you are about to be supported by someone whose job is to help young people be safe when they are outside of home.

What sort of things would you **like** a worker to do?

What sort of thing would you **NOT** like a worker to do?

DO'S 	DON'TS 

'THE WHOLE POINT IS TO EMPOWER YOUNG PEOPLE AND MAKE THEM FEEL IN CONTROL, TO BE ABLE TO MAKE COMPETENT SMART DECISIONS FOR THEMSELVES.'

young person's words

What do you think workers can do to help make places outside the home safer for young people? How can they support young people who have been hurt?
